OBJECTIVE

Fresh BS Computer Science graduate specializing in Digital Forensics, seeking an entry-level role in software development, data analysis, or IT support. Detail-oriented and analytical, with hands-on experience in full-stack development, digital evidence analysis, and system design.

TECHNICAL SKILLS

Security & Forensics: Magnet AXIOM, AMPED, Wireshark, Nmap, Metasploit, Burp Suite, PEview, CFF Explorer etc.

Machine Learning: CNN Siamese Networks, Vision Mamba, Contrastive Learning.

Web Development: HTML, CSS, BOOTSTRAP, JavaScript,

Mobile Development: Android (Java & XML)

Database: MySQL, PostgreSQL, Microsoft SQL Server, SQLite, Firebase

Tools & Technologies: Git, GitHub, Docker, VS Code,

Operating System: Windows, Linux, Ubuntu

Frameworks: Springboot, FastAPI, Laravel

Languages: Java, Python, SQL, PHP, JavaScript

INTERNSHIP EXPERIENCE

Digital Forensics Examiner Trainee (400 hrs)

Mar – May 2026

National Bureau of Investigation, Digital Forensics Division, Manila

- Examined digital evidence using Magnet AXIOM, performing data extraction and analysis from storage and mobile devices.
- Enhanced and analyzed digital incident video footage using AMPED software to support investigative findings.
- Trained in proper handling, documentation, and chain-of-custody procedures in accordance with NBI standards.
- Managed and processed confidential evidence documentation, ensuring accuracy and integrity of forensic reports.
- Represented the NBI Digital Forensics Division at regional hiring events, gaining exposure to operational law enforcement processes.

PROJECTS

Offline Signature Verification – Siamese Vision Mamba (Thesis)

- Developed a Siamese Vision Mamba model with contrastive loss for multi-reference signature verification.
- Deployed as a lightweight application using FastAPI and Docker for practical usability.
- Implemented audit-ready explainability features to support forensic transparency.
- Validated by the PNP Camp Crame Question Document Division.
- Accepted for publication at the 11th International Conference on Computer and Communication Systems (ICCCS 2026).

Mobile Forensics and Device Investigation

- Reverse-engineered a suspicious APK to confirm unauthorized data transmission to an external IP address.
- Recovered account credentials from the device's email database and validated root-level system access.
- Produced case report documentation covering evidence identification, chain-of-custody, and timeline reconstruction.

Keep It Up – Android Task Manager App

- Built a full-featured Android task management app (Java, SQLite) with secure login, CRUD operations, and category filtering.
- Developed a deadline notification system and task-sharing feature via social media or direct sharing.

Network Forensics and Attack Simulation

- Analyzed packet captures to isolate beaconing, C2 activity, and ARP poisoning; produced indicators of compromise and incident timelines.
- Simulated DoS and MITM attacks using Metasploit and Burp Suite; recommended rate-limiting and HSTS controls.
- Authored a concise SOC playbook for incident handling.

Seek4Smile Dental Appointment System

- Developed a full-stack dental booking platform using HTML, CSS, PHP, and JavaScript.
- Integrated real-time chat, custom payment system, prescription features, and an admin dashboard.

Malware Analysis

- Analyzed malicious files using PEview, Process Monitor, and CFF Explorer to trace infection vectors and system impact.
- Developed system recovery plans with actionable security recommendations.

EDUCATION

BS Computer Science, Specialization in Digital Forensics
National University, Manila

2022 – 2026

Senior High School
AMA Computer Learning Center, Manila

2020 – 2022

WORK EXPERIENCE

Photobooth Assistant (Part-time)
Blissful Shots, Tondo, Manila

Jun 2018 – Jul 2026

- Performed routine maintenance and electrical checks to keep equipment functional and safe.
- Ensured operational efficiency in a fast-paced event environment and managed layout editing for photobooth outputs.

Crew Member (Part-time)
McDonald's Morayta, Manila

Jun 2022 – Jan 2026

- Delivered high-quality customer service during events and gatherings.
- Maintained all equipment in proper working order.
